

PRADHEESH A

Product Data & Catalog Management | Data Operations & Quality Analyst

Chennai, Tamil Nadu | +91 78249 83778 / +91 63741 81447 | pradhee2803@gmail.com

PROFESSIONAL SUMMARY

Workflow Specialist with **2.5 years** of experience in Data and Catalog Management, specializing in product catalog validation and enrichment for Macy's within the STIBO PIM system. Experienced in **Item onboarding**, attribute enrichment, data validation, and quality checks using merchants and supplier(vendor) information. Skilled in ensuring product data accuracy and completeness before publishing through **Live 2 Site**. Proven ability to maintain high-quality product master data, meet SLA and quality targets, and collaborate effectively with merchandising, content, and technical teams to resolve product and catalog-related issues.

AREA OF EXPERTISE

- **Product catalog work:** validating and organizing large sourced datasets in Excel and VBA macros, standardizing attributes across categories and variants
- **Item onboarding and attribute enrichment:** researching missing manufacturer and supplier data, adding part number, brand, UPC, pack/case quantity, weight, and dimensions to product records
- **Data validation and conflict resolution:** catching missing, duplicate, or conflicting product data and resolving it against business rules before publishing
- **Live to Site:** reconciling product data across source, PIM, and downstream platforms before it goes live
- **Master data management:** maintaining a clean, audit-ready master product file in STIBO for attribution update
- **Cross-functional collaboration:** partnering with merchandising, content, and technical teams to clarify data requirements and deliver fixes
- **Case and issue tracking:** resolving data exceptions in Jira inside SLA-bound, compliance-driven workflows

PROFESSIONAL EXPERIENCE

Workflow Specialist (Quality Assurance)

Apr 2024 – Present

Tata Consultancy Services (TCS) — Client: Macy's Systems and Technology, Inc. (E-commerce & Retail)

Product Data Management, Item Onboarding & Attribute Enrichment

- Organize high volumes of product data daily in Excel, standardizing formats and structuring records for item onboarding and attribute resolution in STIBO.
- Research missing product information from manufacturer and supplier sources, and enrich records with brand, UPC, pack/case quantity, weight, dimensions, and other required attributes.
- Sort products into categories and variants, and review images, descriptions, specifications, and source links for completeness before onboarding.

Data Validation & Live2Site

- Validate incoming product data against templates and business rules before Live2Site publishing, catching integrity and accuracy issues before they reach the live site.
- Maintain a clean, audit-ready master product file, using intermediate Python for content validation.

Documentation, Reporting & Cross-Functional Collaboration

- Keep case logs, issue trackers, and data-quality documentation current in Jira to support audit trails and stakeholder visibility.
- Report data quality status, trends, and resolution updates to stakeholders on a recurring basis, tracked against KPI targets.
- Work with merchandising, content, and technical teams in a shared-services model to close out product data requirements and attribution cases on time.

KEY ACHIEVEMENTS

- Star of the Month Award (x2) - Dec 2025 and May 2025, for consistently maintaining quality standards across high-volume product datasets.
- Xcelerate Warrior Certificate — May 2025, for timely delivery during a critical data migration and reporting cycle.

CERTIFICATIONS & TRAININGS

- BDA Initiate — Retail Industry Overview
- Secuware — Cybersecurity Awareness
- Foundation Certificate in Retail (Domain Advisory)
- Cyber Security Foundation — Infra & Data Security
- IQMS for PLs Training
- Retail Merchandising — Intermediate
- Software Security Assurance — HiTech
- Web Development (React) - FITA Academy, 2024
